

Centre for Agroecological Promotion (CAEP)

Three-Year Impact Report (2022-2024)

Location: Tombel, Kupe Muanengube Division, Southwest Cameroon

Contact: +237 677493030 | caepcentre@gmail.com | www.caepcentre.com

1. Executive Summary

From 2022 to 2024, CAEP has strengthened agroecology, climate-resilient farming, and community empowerment...

2. Organizational Highlights

Legal Status: Registered in 2020 as a community-based organization.

Key Partnerships:

- IRAD Njombe – formalizing MoU...
- ERuDeF – partnership not yet formalized
- SAILD – collaborative partner exchange visits and seed fairs
- GDA & CED – cocoa agroforestry, climate-smart practices
- NEPAC Network – active member since inception

Core Programs:

- Farmer Field Schools (cassava, cocoa, plantain)
- Women's empowerment initiatives
- Agroecology knowledge dissemination and technical capacity building

3. Program Activities & Achievements (2022–2024)

Program Activities & Achievements Table

Year	Activity	Achievements / Outputs	Outcomes / Impact
2022	Green Grants Fund Project	USD 20,000 (XAF 11,178,000) utilized for training	300 farmers trained
2023	Agroecology Fund Project	USD 33,000 (XAF18,443,550) used for trainings	500 farmers trained; 3 cooperatives strengthened
2024	Cocoa Seedling Distribution	25,000 seedlings raised; USD 4,000 (XAF2,235,600)	Strengthened cocoa production

4. Impact Highlights

- ✓ 1,200+ farmers and women engaged in agroecology practices.
- ✓ Improved technical capacity through workshops, FFS, exchange visits, and collaborative activities.
- ✓ Cocoa production strengthened through 25,000 improved seedlings distributed in partnership with SOWEDA.
- ✓ Regional and international visibility via participation in workshops/conferences in Congo, Zimbabwe, and Cameroon.
- ✓ Strengthened research & innovation capacity through collaboration with IRAD.
- ✓ Enhanced partnerships with GDA, CED, SAILD, IRAD Njombe, NEPAC, and other stakeholders.

5. Financial Overview (2022–2024)

Financial Overview Table

Year	Funding Source	Amount (USD)
2022	Green Grants Fund	20,000
2023	Agroecology Fund	33,000
2024	SOWEDA Subvention	4,000 (expected)

6. Lessons Learned

- Early engagement and training increase adoption of sustainable practices.
- Collaborative partnerships amplify reach and impact.
- Core operational support remains critical.
- Exchange visits and regional workshops enhance learning, exposure, and credibility.

7. Future Directions (2025–2027)

- Implement pilot studies on Azolla–poultry–fish system.
- Begin joint research with IRAD.
- Scale up value chain support.
- Strengthen women’s empowerment.
- Secure core support.
- Expand networking.

8. Acknowledgements

CAEP extends sincere thanks to all donors, partners, and staff...
